SWEDISH COMPANY SYNONYMOUS
WITH HIGH QUALITY AND LONG
LASTING FURNITURE FITTINGS

– EXPERIENCE SINCE 1922 –

SCANDINAVIAN DESIGN AT ITS BEST

Discover our extensive collection of handles and knobs — a carefully curated assortment that captures the very essence of Scandinavian design. From clean, understated basics to exclusive premium pieces crafted with meticulous attention to detail, our range offers something for every home, every style and every budget.

With a strong focus on form, function and timeless aesthetics, our products are designed to elevate any interior. Whether you are creating a brand-new kitchen, refreshing your wardrobe doors or adding the final touch to your bathroom, you'll find shapes, colours and finishes that blend seamlessly into your space — or stand out with confident elegance.

Every piece in our collection reflects the hallmarks of Scandinavian design: simplicity, quality, natural harmony and thoughtful craftsmanship. Choose from a wide variety of materials, surface treatments and fittings to create a cohesive look throughout your home, or mix and match to express your personal style with clarity and character.

Stay inspired and keep up with the latest launches, trends and design news on our website and social media channels.

OUR COLOURS AND FINISHES

Our handles and knobs are available in a wide selection of carefully chosen colours and finishes. Each surface is designed to enhance both modern and classic interiors, giving your home a refined and personal touch.

1. Aged black

Aged black has a matte, textured surface reminiscent of traditional ironwork. Its solid, handcrafted feel makes it ideal for rustic, industrial, or classic interiors where materiality and weight are key elements.

2. Aged Brass

Aged Brass features a deeper, naturally aged tone that conveys history and charm. Its patinated character brings a genuine, rustic feel that enhances both traditional and country-style interiors.

3. Aged tin

Aged tin offers a soft, silvery tone with a subtle patina. Its harmonious and neutral character makes it easy to pair with both warm and cool colours, creating an elegant and understated look.

4. Brass

Polished Brass is the choice for those who want a luxurious and eye-catching finish.

The glossy surface offers a warm glow reminiscent of traditional craftsmanship and timeless quality.

5. Chrome

Chrome is a timeless choice that offers an elegant and sophisticated expression. Its mirror-polished surface reflects light beautifully, creating a sense of purity and exclusivity in kitchens, bathrooms, and wardrobes.

6. Matt Black

Matt Black is a modern and minimalist option that creates strong contrasts and a clean, contemporary look. The smooth, non-reflective surface pairs equally well with light and dark materials.

7. Matt Brass

Matt Brass adds warmth and elegance. The brushed surface gives a soft, exclusive character that fits perfectly in both classic and modern environments.

8. Oxide

Oxide is a raw and industrial finish with dark, earthy tones. It delivers a bold, modern expression and works beautifully in spaces where you want to introduce contrast and character.

9. Stainless Steel Look

The Stainless Steel Look provides a clean and functional appearance inspired by brushed stainless steel. Its subtle and versatile character makes it easy to combine with a wide range of colours and materials, resulting in a professional and timeless impression.

10. Titanium Black

Titanium Black is an exclusive, deep dark finish with a refined metallic sheen. It combines modern elegance with technical precision, resulting in a sophisticated and powerful expression in any interior.

Extended Colour Options

Beyond our standard finishes, we offer an extensive selection of additional colours and custom surface treatments. All alternative finishes are available with a minimum order quantity (MOQ) per colour.

Whether you need a well-established standard finish or a completely bespoke colour tailored to a specific interior concept or brand identity, we provide a wide range of options. With multiple colours and surface treatments to choose from, it's easy to create a solution that meets both the aesthetic vision and the technical requirements of your project.

ENVIRONMENT AND SUSTAINABILITY

At Theofilis, we are driven by a clear ambition: to create long-lasting products that combine Scandinavian design with genuine environmental responsibility. Every handle and knob we produce is developed with care — from material selection and surface treatment to durability, function and timeless aesthetics.

Sustainability is not an afterthought for us; it is a natural part of how we work. We continuously review our logistics, packaging and production processes to reduce our environmental footprint and ensure that our operations reflect our long-term commitment to responsible manufacturing.

To ensure transparency and continuous improvement, we conduct annual audits of our operations. We are certified by several national and international environmental organisations, reinforcing our commitment to accountability, quality and long-term responsibility as a producer in this industry.

Scandinavian design, crafted with respect for both people and planet.

1.

HANDLES

In the first chapter of our catalouge we present
a wide range of our own produced handles.
The whole range are available in a great variaty
of design and colours.

Design and details have been carefully crafted
for any type of needs and for all sorts of usage;
kitchen, bathroom, wardrobe, furnitures etc.

All with focus on Scandinavian design.

2.

KNOBS

In the second chapter of our catalouge we present
a wide range of our own produced knobs.
The whole range are available in a great variaty
of design and colours.

Design and details have been carefully crafted
for any type of needs and for all sorts of usage;
kitchen, bathroom, wardrobe, furnitures etc.

All with focus on Scandinavian design.

6.

SCANDINAVIAN COLOURS

In the sixth chapter of our catalogue we present a wide range of our own produced handles and knobs, painted in selected colours. The whole range are available in a great variety of design.

Design and details have been carefully crafted for any type of needs and for all sorts of usage; kitchen, bathroom, wardrobe, furnitures etc.

All with focus on Scandinavian design.
