

As Theofilis strive for upholding laws and regulations according to our Code of Conduct and Reach, Rohs, SDS etc, we also have demands for not using certain materials and/or surface treatments.

When recycled materials are used Theofilis request this to be notified and specified.

In our products we request for not having any:

PVC-plastics - this can be substituted into PET or biodegradable plastics.

Chrome-6, also known as hexavalent chromium, *chrome* (VI) or *Cr*(VI)

Added Nickel (accepted when in foI stainless steel alloy)

Added lead (accepted when in foI low-lead brass alloy)

Conflictminerals (3TG) Tenn, Tantal, Volfram and Gold with origin in a conflict country.

(Phtalates)

Microplastics

If used in existing products this should be notified immediately to Theofilis on individual article level and when possible, planned for exchange of substance.

All of the above to comply with ECHA /Reach.

When necessary, products on the SVHC list should be registered with SCIP and notified to Theofilis

SDS (Safety Data Sheets) shall be sent to Theofilis upon request.

On behalf of Theofilis 2021-10-25
