HOLZ- WERK ROCKEN- HAUSEN: THE COMPANY

Wood must be the world's oldest renewable raw material. It's also always been a source of energy and warmth. This energy can be felt, seen and smelt the moment you come into contact with this material that is so warm and visually variable. There are virtually no limits to the things that can be designed and made of wood – each generation approaches the creative challenges in a different way. In short, wood is an integral part of our lives and of the places where we live and work.

Rockenhausen is a company that is cultivating a tradition of fine workmanship in designing and manufacturing distinctive organizer systems with exchangeable elements for kitchens and living spaces. One area of specialization is veneers and surfaces made of fine quality woods. Rockenhausen supplies hand-crafted elements and systems – from standard items to custom-made series. They are all designed and made with a passion for excellence and with know-how accumulated over many years. The organizer elements for drawers, pull-outs and pull-out trays not only look beautiful, but are made with immense attention to detail and loaded with well-planned functionality. Radiating warmth and energy, practical and beautiful.

OAK & ASH

American oak and European ash are the woods we choose to work with. Because they cover a wide range from pale to dark shades, because they offer any number of combination options and because of the distinctive grains and their outstanding workability. They look wonderful and function perfectly through many years of hard.

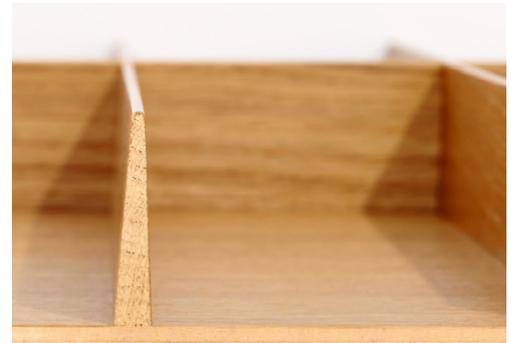

FineLine MosaiQ

ATTENTION TO DETAIL

OUT- STANDINGLY VERSATILE

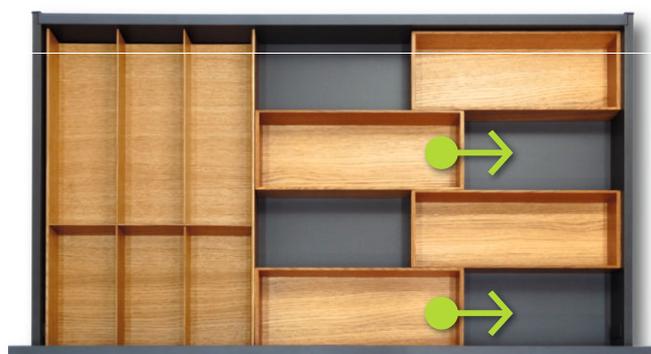

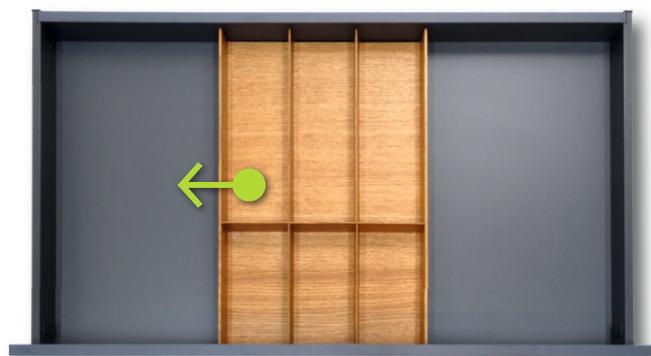

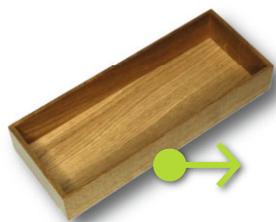

Only 21 elements to create a huge range of organizer systems – for drawers, pull-outs, DISPENSA, DISPENSA junior, wall units and LINERO MosaiQ.

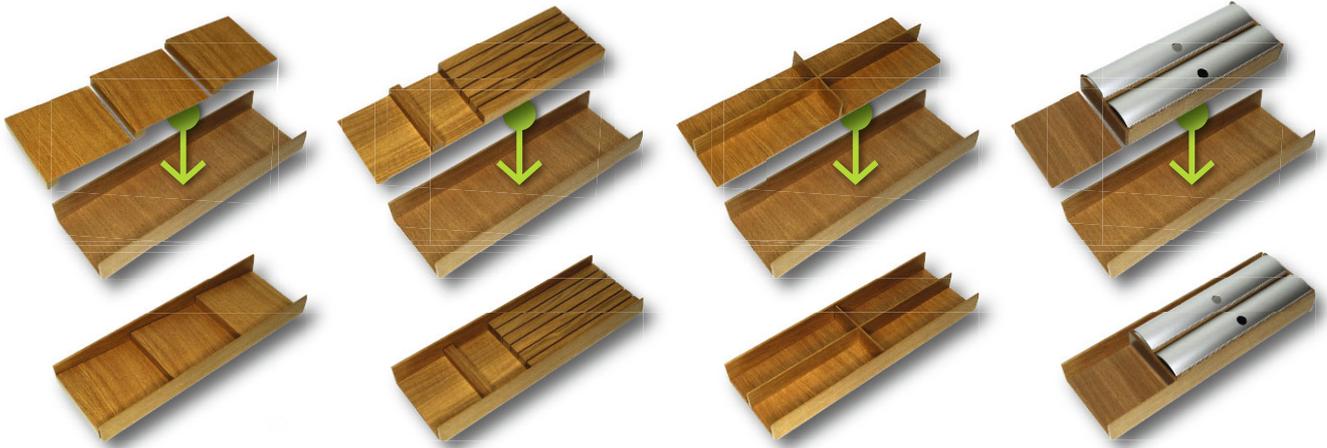

FLEXIBLE DIVIDERS

The advantages are obvious – the FineLine MosaiQ organizer elements can be combined and arranged to exactly suit the end-user's requirements. They can be rearranged in minutes to accommodate changed circumstances. And it's absolutely easy to add special extra components such as foil roll holders, spice jar inserts and knife blocks.

VITAL STATISTICS

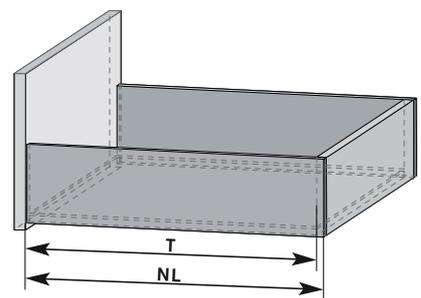

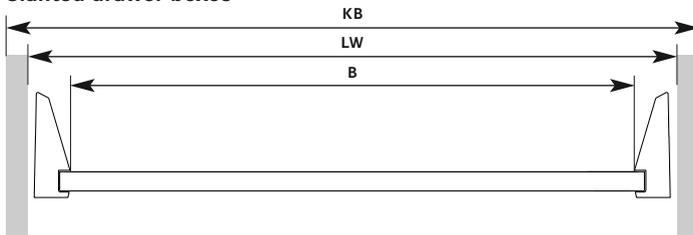

The best feature is that these modular and variable elements can be combined in many different ways and fit into both straight and slanted drawer boxes. The system is designed for drawer depths from 500 to 650 mm and fits drawers and pull-outs from all major kitchen manufacturers.

FineLine MosaiQ

Who would have thought that the inside of drawers and pull-outs could be so tidy, functional and individual. FineLine MosaiQ is fun to plan and work with. Made with a material mix of warmly attractive wood and fine metal, the range creates a contemporary, high-end look and a balanced, visual link to carefully chosen kitchen fronts.

OH... ORGANI- ZATION!

Minimalist – elegant with a hint of luxury. Organization meets lifestyle. No mess and confusion; instead elements are positioned neatly side by side. And they're more flexible to use than ever before – with ample compartments for cutlery and also purpose-designed inserts for spices, coffee capsules and anything else you want to keep close to hand. Beautiful designs in fine wood. With all the contents perfectly organized for a clear overview and easy access.

SIMPLY PULL!

Whatever you're storing – from beverage bottles to groceries – pull-outs are best kept tidy. The FineLine range offers an impressive choice of wooden inserts for pull-outs designed to keep everything in order. It's today's ultimate solution for intelligent storage space utilization. The wooden modules have grip holes so that they can be easily lifted out and transported. They're so attractive and elegant that you'll want to use them as decorative items on worktops and tables. The elegant and removable plate rack with the metal designer grips is another clever accessory for modern dining. No more chipped plates!

DISPENSA & JUNIOR – ALL IN THE BOX

Can you take something perfect and improve it? Yes, you can! Even brilliant storage systems with huge capacity and a great overview – like DISPENSA & DISPENSA junior – benefit from using the modular wooden boxes from the FineLine MosaiQ range.

Adaptable and completely transportable, the module boxes give your kitchen a very special flair. They're the perfect place to store anything that needs to be fetched out of the cupboard often for frequent use.

CONVOY TUNING TRAYS

A clear view at every level! This is what the tuning trays for CONVOY Premio and Lavidio deliver – in combination with FineLine products. The base trays come in a choice of trendy, contemporary colours – bright chrome, anthracite and black – without a high railing. The individual oak organizer module simply fits onto the tray, creating the most attractive frame for your personal pleasure.

Combining the Level 3 Rockenhausen product range with a CONVOY Premio or Lavidio requires special tuning trays! Unlike standard trays, these trays have no high railing.

UNCOM- PLICATED OPENNESS

A place for everything and everything in its place. Functional minimalism – for plates and mugs too. The flexibly adjustable grid can be positioned to fit your crockery, not the other way round.

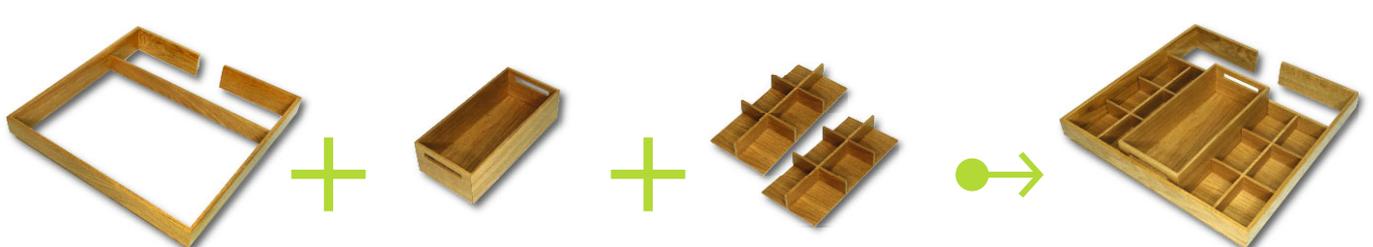

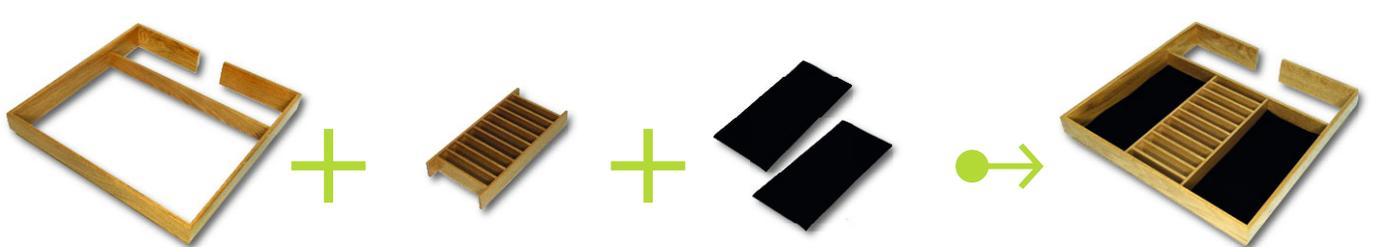

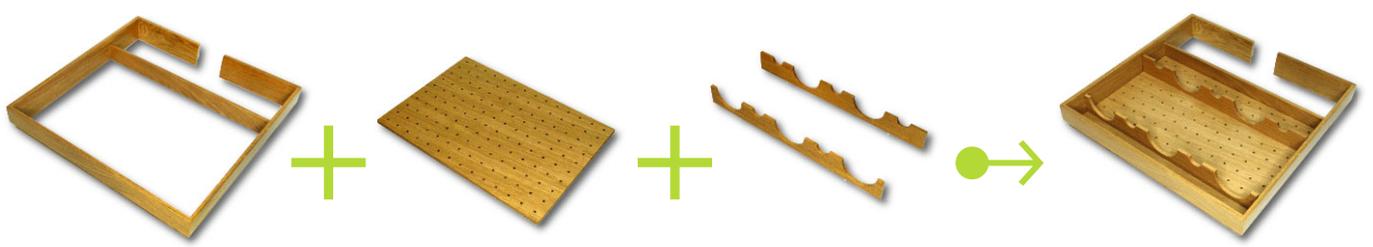

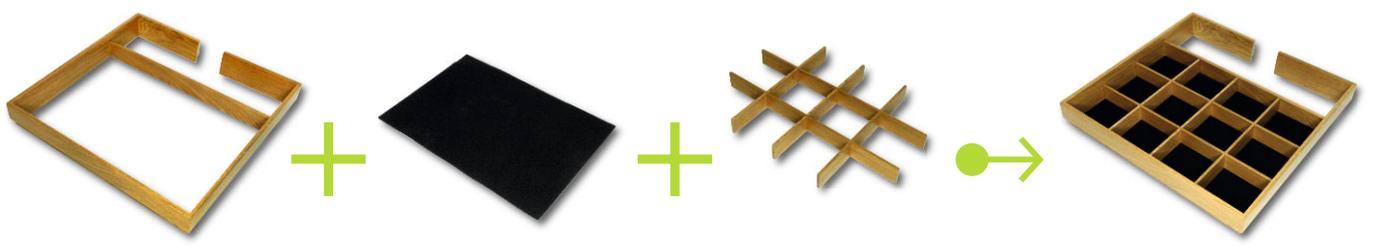

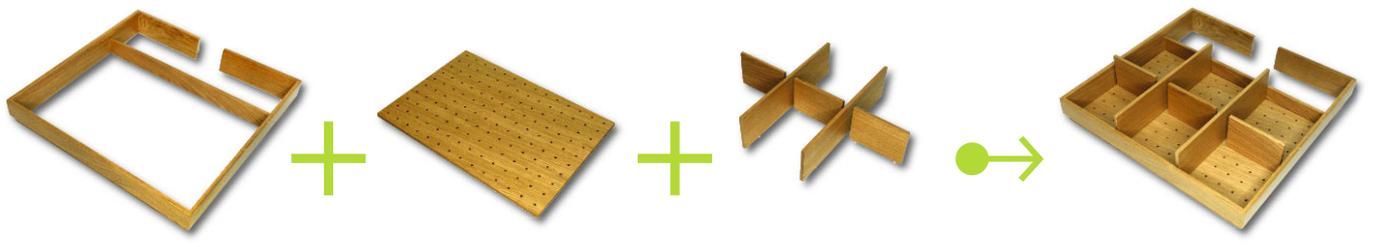

MIX AND MATCH

Ready, steady, beautiful! A well-planned system with almost endless organizer options. Users choose the options they want, the elements are quickly installed and can be changed just as fast whenever the user feels like it. We set great store by individual choice. And our products are simply beautiful.

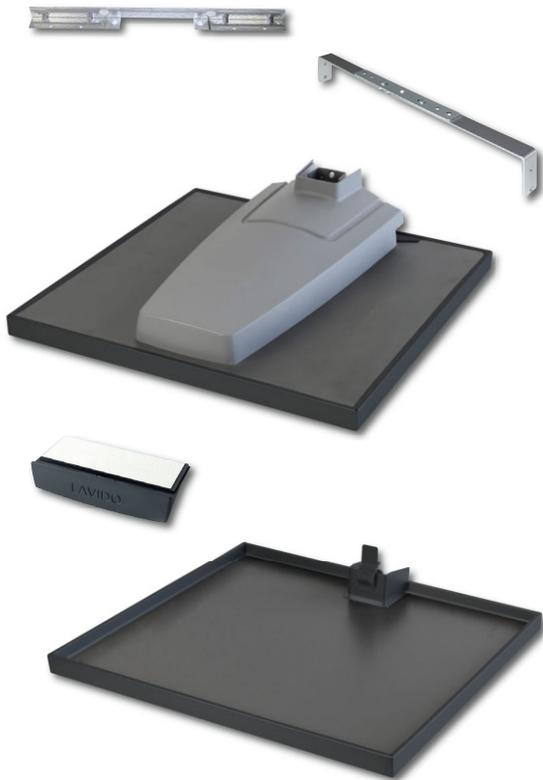

CONVOY LAVIDO ACCESS!

A multitalent with a panorama view. Openness and perfect order. A gentle pull moves the stylish trays smoothly out of the cabinet, giving a clear view of the perfectly organized contents. The intelligent wooden inserts transform a simple cupboard into a genuine, multifunctional storage unit. At the same time the beautiful design enhances the contemporary look of the kitchen.

CONVOY PREMIO

Technology meets design. The CONVOY Premio stands for pioneering engineering, transparency, elegance, smooth action and absolute comfort. Fully laden the fitting glides in and out as smoothly as empty. As the door opens, the elegant trays glide automatically outwards to give you an unrestricted view of all the contents.

Level 3 customization module boxes complete the look and add to the functionality, offering a wealth of variable options for storing and organizing the contents. The inserts are also available as a removable tray for use outside the cabinet.

LINERO MOSAIQ

The LINERO MosaiQ storage elements for the splashback area have always been immensely variable, but they've never been more attractive! The oak storage boxes bring natural flair into the most sophisticated kitchen. FineLine wooden module boxes on any of the three LINERO MosaiQ heights create decorative and intelligent accents throughout the kitchen. Use them to store fragrant spices and herbs. Choose boxes with or without lids. And move them around where you want them.
