

**TANDEM swivel pull-out** –  
two shelf elements behind one door.

More storage space,  
**better organised,**  
 better access.

TANDEM offers completely new potential for food storage – just opening the door is an inspiration. In a clever piece of engineering, the back shelf element moves automatically towards the user as the door is pulled open. Kitchen users can check contents at a glance and easily reach what they want. The shelf element on the door is designed to make best use of the available space.

Double the gain by installing two TANDEMS in one kitchen unit: as a TANDEM Depot, in 90-, 100- and 120-cm units.

Trays and baskets can be fitted at different levels

Smooth, silent opening and closing

Simplified assembly

Generous storage space in the door shelf
