

# REISSER DNS<sup>®</sup>

The fastest Multi-Versal Screw

# REISSER DNS<sup>®</sup>

The fastest Multi-Versal Screw: **50% faster, 20% more stable\***

\*compared to regular chipboard screws

## Custom colours on request!

- Finish in zinc plated yellow and blue

## A neat surface – faster!

- Milled ridges underneath head create perfect countersunk in wood
- No pre-countersunk required

## 50% faster and 20% more stable!

- Double thread with a higher gradient for turning in and a secure hold

## DNS<sup>®</sup> plus with Torx drive

## DNS<sup>®</sup> with Pozidriv drive

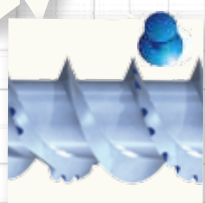

## An easy entry with no resistance!

- Cutting teeth cut up the wood fibre and reduce the coefficient of friction of the following thread

## Ease of inserting!

- Anti friction coating reduces resistance when fastening

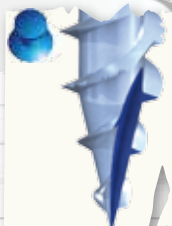

## Less discards ensures quality and saves money!

- Collar pre-drills and prevents the material from splitting

## Convenient and fast!

- Immediate grip for fast and convenient work

## Guaranteed reliability!

- ETA approval guarantees quality

## Field of application

- Interior works
- Furniture construction
- Wood structures
- Etc.

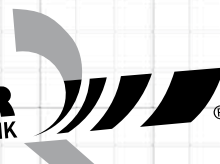

## Highlights

- DNS<sup>®</sup> plus with Torx drive
- DNS<sup>®</sup> with Pozidriv drive
- Zinc plated yellow, zinc plated blue free of chrome VI
- Anti friction coating
- Full thread, partial thread with milled ridges underneath head and collar

## Recommendation for handling

- Depending on the measurements and wood quality, pre-drilling may be necessary
